

1. Log into the cloud. Select the appropriate company.
2. Select Total Safes.

The screenshot shows the AMSEC Cloud Dashboard for 'SALES DEMO'. The user is logged in as 'aryan@amsecusa.com'. On the left is a navigation menu with options: Dashboard, Reports, Cloud Management, Configurations, Safe Monitoring, and Logout. The main dashboard area has three summary cards: 'Total Groups 9', 'Total Safes 21' (circled in red), and 'Safe Monitoring'. Below these is a 'Recent Activities' section with two entries: 'Last Login Password Change' on 06/07/2019 at 07:45:25, and 'Previous Site Visit' on 06/11/2019 at 04:32:19.

3. Find the location and select Search.

The screenshot shows the 'Safes / Choose Safe' screen. A navigation menu on the left includes: Dashboard, Reports, Cloud Management, Configurations, Company, Groups, and Location. The main area has a row of icons for various settings: Choose Safe, Basic Settings, Cash Management, Component Management, Event Management, Holiday Settings, Door Settings, Access Settings, Safe Users, Courier Settings, and Connectivity Settings. Below this is a search form with a 'Safe S/N' dropdown (set to 'Select One'), a 'Location Name' dropdown (set to 'Test J'), a 'Search' button (circled in red), and a 'Reset' button.

4. Select Cash Management.

The screenshot shows the 'Safes / Basic Settings' screen. The 'Cash Management' icon in the top navigation bar is circled in red. The main area displays details for a safe: Safe S/N: KS07072022, Company: Sales Demo, Location Name: Test J, State: Texas, Country: United States, Status: Safe Enrolled, and Last Sync Time: 06/10/2019 22:33:57 (CDT). There are two buttons: 'View Inventory Summary' and 'View EOD Summary'.
